Zelman DC, Gore M, Dukes E, Tai KS, Brandenburg N. Validation of a modified version of the Brief Pain Inventory for painful diabetic peripheral neuropathy. 2005;23:97-104

*March, 1-40; June, 41-86; September, 87-120; December, 121-166

Subject Index*

A

Abstracts
Poster abstracts presented at the 23rd annual national symposium of the Society for Vascular Nursing. 2005;23:82-4
Session abstracts presented at the 23rd annual national symposium of the Society for Vascular Nursing. 2005;23:77-81
Aging
Vascular nurse competency in aging (Nunnelee). 2005;23:32
American Nurses Credentialing Center
In pursuit of magnet status: the impact of nursing research (Rich). 2005;23:30-1
Amputation
Building a successful support group for post-amputation patients (Marzen-Groller and Bartman). 2005;23:42-5
Ankle
The importance of obtaining ankle-brachial indexes in older adults: the other vital sign (Lawson). 2005;23:46-51 (CEC article)
Teaching the Ankle-Brachial Index in nursing: a new core competency (Lawson). 2005;23:69-71
Anticholesteremic agents
Lipid management in patients with vascular disease (Kohlman-Trigoboff). 2005;23:72-6
Anticoagulants
Upsetting the apple cart: a community anticoagulation clinic survey of life event factors that undermine safe therapy (Edmundson et al). 2005;23:105-11
Aortic aneurysm, abdominal
Health-related quality of life in long term survivors of thoracoabdominal aortic aneurysm repair (Olberg et al). 2005;23:88-96 (CEC article)
Aortic aneurysm, thoracic
Health-related quality of life in long term survivors of thoracoabdominal aortic aneurysm repair (Olberg et al). 2005;23:88-96 (CEC article)
Atherosclerosis
Lipid management in patients with vascular disease (Kohlman-Trigoboff). 2005;23:72-6
Authorship; *see* Writing
Awards and prizes
In pursuit of magnet status: the impact of nursing research (Rich). 2005;23:30-1
Perspectives (Lewis). 2005;23:1

B

Blood-borne pathogens
Catheter-related blood stream infections: current assessments on impact, treatment and prevention: key opinion leader roundtable discussion (Darouiche et al). 2005;23:149-54
Brachial artery
The importance of obtaining ankle-brachial indexes in older adults: the other vital sign (Lawson). 2005;23:46-51 (CEC article)
Teaching the Ankle-Brachial Index in nursing: a new core competency (Lawson). 2005;23:69-71

C

Cardiovascular abnormalities
Abnormal cardiovascular response to exercise in patients with peripheral arterial disease: implications for management (Oka et al). 2005;23:130-36 (CEC article)
Cardiovascular disorders
Non-invasive cardiovascular risk assessment in women with type 2 diabetes (Penckofer et al). 2005;23:2-7 (CEC article)
Vascular risk management through nurse-led self-management programs (Sol et al). 2005;23:20-4
Catheters, indwelling
Catheter-related blood stream infections: current assessments on impact, treatment and prevention: key opinion leader roundtable discussion (Darouiche et al). 2005;23:149-54
Change; *see* Life change events; Organizational innovation
Clinical Column
Teaching the Ankle-Brachial Index in nursing: a new core competency (Lawson). 2005;23:69-71
Venous disorders: overview of current practice (Sieggreen). 2005;23:33-5
Clinical competence
Teaching the Ankle-Brachial Index in nursing: a new core competency (Lawson). 2005;23:69-71
Vascular nurse competency in aging (Nunnelee). 2005;23:32
Communication
The poster presentation: an exercise in effective communication (Lawson). 2005;23:157-8
Constriction, pathologic
Diagnosis and management of iliac vein compression syndrome (Shebel and Whalen). 2005;23:10-17 (CEC article)
Cross infection
Catheter-related blood stream infections: current assessments on impact, treatment and prevention: key opinion leader roundtable discussion (Darouiche et al). 2005;23:149-51

D

Data collection
Upsetting the apple cart: a community anticoagulation clinic survey of life event factors that undermine safe therapy (Edmundson et al). 2005;23:105-11
Depression
Peripheral vascular disease and depression (Pratt et al). 2005;23:123-27 (CEC article)
Diabetes mellitus
Peripheral arterial disease in diabetic patients selected from a primary care setting: implications for nursing practice (Khattab et al). 2005;23:130-36 (CEC article)
Diabetes mellitus, non-insulin-dependent
The impact of type 2 diabetes and peripheral arterial disease on quality of life (Oka and Sanders). 2005;23:61-6 (CEC article)
Non-invasive cardiovascular risk assessment in women with type 2 diabetes (Penckofer et al). 2005;23:2-7 (CEC article)
Diabetic neuropathies
Validation of a modified version of the Brief Pain Inventory for painful diabetic peripheral neuropathy (Zelman et al). 2005;23:97-104
Dyslipidemia; *see* Hyperlipidemia

E

Evaluation studies
Monitoring research fidelity (Kelechi). 2005;23:155-6
Evidence-based medicine
Implementing evidence-based practice; walking the talk (Thurston and King). 2005;23:54-60
Exercise
Abnormal cardiovascular response to exercise in patients with peripheral arterial disease: implications for management (Oka et al). 2005;23:130-36 (CEC article)
Research update: new research being undertaken to examine ways to improve exercise capacity in patients with insulin resistance (Christman). 2005;23:115

H

Hyperlipidemia
Lipid management in patients with vascular disease (Kohlman-Trigoboff). 2005;23:72-6
Hypertension
Abnormal cardiovascular response to exercise in patients with peripheral arterial disease: implications for management (Oka et al). 2005;23:130-36 (CEC article)

I

Iliac vein
Diagnosis and management of iliac vein compression syndrome (Shebel and Whalen). 2005;23:10-17 (CEC article)
Insulin resistance
Research update: new research being undertaken to examine ways to improve exercise capacity in patients with insulin resistance (Christman). 2005;23:115

L

Leg ulcer
Venous disorders: overview of current practice (Sieggreen). 2005;23:33-5
Life change events
Upsetting the apple cart: a community anticoagulation clinic survey of life event factors that undermine safe therapy (Edmundson et al). 2005;23:105-11
Life style
Vascular risk management through nurse-led self-management programs (Sol et al). 2005;23:20-4

N

Nursing
Implementing evidence-based practice; walking the talk (Thurston and King). 2005;23:54-60
Perspectives (Lewis). 2005;23:1
Nursing continuing education
Abnormal cardiovascular response to exercise in patients with peripheral arterial disease: implications for management (Oka et al). 2005;23:130-36
Diagnosis and management of iliac vein compression syndrome (Shebel and Whalen). 2005;23:10-19
Health-related quality of life in long term survivors of thoracoabdominal aortic aneurysm repair (Olberg et al). 2005;23:88-96
The impact of type 2 diabetes and peripheral arterial disease on quality of life (Oka and Sanders). 2005;23:61-6
The importance of obtaining ankle-brachial indexes in older adults: the other vital sign (Lawson). 2005;23:46-51
Non-invasive cardiovascular risk assessment in women with type 2 diabetes (Penckofer et al). 2005;23:2-9
Peripheral vascular disease and depression (Pratt et al). 2005;23:123-27

O

Organizational innovation
Perspectives (Lewis). 2005;23:121-22
Outcome assessment (health care)
Health-related quality of life in long term survivors of thoracoabdominal aortic aneurysm repair (Olberg et al). 2005;23:88-96 (CEC article)

P

Pain measurement
Validation of a modified version of the Brief Pain Inventory for painful diabetic peripheral neuropathy (Zelman et al). 2005;23:97-104

Patient compliance
Upsetting the apple cart: a community anticoagulation clinic survey of life event factors that undermine safe therapy (Edmundson et al). 2005;23:105-11
Patient discharge
Understanding discharge instructions after vascular surgery: an observational study (Lee and Bokovoy). 2005;23:25-9
Patient education
Understanding discharge instructions after vascular surgery: an observational study (Lee and Bokovoy). 2005;23:25-9
Peripheral arterial disease (PAD)
Abnormal cardiovascular response to exercise in patients with peripheral arterial disease: implications for management (Oka et al). 2005;23:130-36 (CEC article)
The impact of type 2 diabetes and peripheral arterial disease on quality of life (Oka and Sanders). 2005;23:61-6 (CEC article)
The importance of obtaining ankle-brachial indexes in older adults: the other vital sign (Lawson). 2005;23:46-51 (CEC article)
Peripheral arterial disease in diabetic patients selected from a primary care setting: implications for nursing practice (Khattab et al). 2005;23:130-36 (CEC article)
Peripheral vascular disease and depression (Pratt et al). 2005;23:123-27 (CEC article)
Teaching the Ankle-Brachial Index in nursing: a new core competency (Lawson). 2005;23:69-71
Perspectives (column)
Perspectives (Lewis). 2005;23:1, 41, 85, 121-22
Planning techniques
SVN strategic plan. 2005;23:112-14
Posters
The poster presentation: an exercise in effective communication Lawson G. 2005;23:157-8
Professional practice
Implementing evidence-based practice; walking the talk (Thurston and King). 2005;23:54-60
Pulmonary embolism
Venous disorders: overview of current practice (Sieggreen). 2005;23:33-5

Q

Quality of life
Health-related quality of life in long term survivors of thoracoabdominal aortic aneurysm repair (Olberg et al). 2005;23:88-96 (CEC article)
The impact of type 2 diabetes and peripheral arterial disease on quality of life (Oka and Sanders). 2005;23:61-6 (CEC article)

R

Recent Publications of Interest in Other Journals
Recent Publications of Interest in Other Journals. 2005;23:36, 85, 116
Reproducibility of results
Validation of a modified version of the Brief Pain Inventory for painful diabetic peripheral neuropathy (Zelman et al). 2005;23:97-104
Research
In pursuit of magnet status: the impact of nursing research (Rich). 2005;23:30-1
Monitoring research fidelity (Kelechi). 2005;23:155-6
Research update: new research being undertaken to examine ways to improve exercise capacity in patients with insulin resistance (Christman). 2005;23:115
Research Column
In pursuit of magnet status: the impact of nursing research (Rich). 2005;23:30-1
Monitoring research fidelity (Kelechi). 2005;23:155-6
The poster presentation: an exercise in effective communication (Lawson). 2005;23:157-8
Research update: new research being undertaken to examine ways to improve exercise capacity in patients with insulin resistance (Christman). 2005;23:115
Vascular nurse competency in aging (Nunnelee). 2005;23:32
Risk assessment
Non-invasive cardiovascular risk assessment in women with type 2 diabetes (Penckofer et al). 2005;23:2-7 (CEC article)
Risk factors
The importance of obtaining ankle-brachial indexes in older adults: the other vital sign (Lawson). 2005;23:46-51 (CEC article)
Peripheral arterial disease in diabetic patients selected from a primary care setting: implications for nursing practice (Khattab et al). 2005;23:130-36 (CEC article)
Risk management
Vascular risk management through nurse-led self-management programs (Sol et al). 2005;23:20-4

S

Self care
Vascular risk management through nurse-led self-management programs (Sol et al). 2005;23:20-4
Self-help groups
Building a successful support group for post-amputation patients (Marzen-Groller and Bartman). 2005;23:42-5
Septicemia
Catheter-related blood stream infections: current assessments on impact, treatment and prevention: key opinion leader roundtable discussion (Darouiche et al). 2005;23:149-51
Severity of illness index
Validation of a modified version of the Brief Pain Inventory for painful diabetic peripheral neuropathy (Zelman et al). 2005;23:97-104
Social support
Building a successful support group for post-amputation patients (Marzen-Groller and Bartman). 2005;23:42-5
Society for Vascular Nursing
Perspectives (Lewis). 2005;23:41
Poster abstracts presented at the 23rd annual national symposium of the Society for Vascular Nursing. 2005;23:82-4
Session abstracts presented at the 23rd annual national symposium of the Society for Vascular Nursing. 2005;23:77-81
SVN strategic plan. 2005;23:112-14
Support groups; *see* Self-help groups

V

Vascular diseases
Peripheral vascular disease and depression (Pratt et al). 2005;23:123-27 (CEC article)
Venous disorders: overview of current practice (Sieggreen). 2005;23:33-5
Vascular surgery
Understanding discharge instructions after vascular surgery: an observational study (Lee and Bokovoy). 2005;23:25-9
Venous thrombosis
Diagnosis and management of iliac vein compression syndrome (Shebel and Whalen). 2005;23:10-17 (CEC article)
Venous disorders: overview of current practice (Sieggreen). 2005;23:33-5

W

Writing
Perspectives (Lewis). 2005;23:85
The poster presentation: an exercise in effective communication (Lawson). 2005;23:157-8
